**Re: FPN 429551-2-52-01, FAP No. 3115-024-P, FDOT Contract No. E2P12
SR 200 - Design-Build in Nassau & Duval Counties, Florida**

Dear Mr. Hagedoorn:

I just wanted to take the time to thank you and your staff for the outstanding work performed to-date on our SR 200 Design-Build project. Knowing that our workload is light and our need to begin construction early is critical, your cooperation and willingness to expedite submittals is greatly appreciated. Submittal of all eight bridge structures concurrent has allowed us great flexibility in scheduling around field constraints.

From our perspective, one of the toughest challenges on Design-Build projects is getting an Engineer that "speaks our language". Your understanding of our wants and needs has been refreshing. Agenda and ego issues have been non-existent. As construction moves along, your continued involvement through routine calls and site visits to check on our progress and answer questions has been welcomed.

Please pass on to your staff our thanks for a job well done. We look forward to the opportunity to again work together.

Yours very truly,
LEWARE CONSTRUCTION COMPANY of FLORIDA, INC.

A handwritten signature in blue ink, appearing to read "Keith A. Waugh". The signature is fluid and cursive, with a large, sweeping flourish at the end.
